"Sentimental" Keepsake

Fine Effusion Lamps &
Home Fragrances

www.enlightenedeve.com

Try our exquisite fragrances:

Amethyst | Tranquility | Jade
Original Sin | Genesis | Larimar

1 Place on flat surfaces away from children and pets. Fill with fragrance no more than 2/3rd full using a funnel or EZ tip dispenser.

www.enlightenedeve.com

2 Place wick in lamp to soak in fragrance making sure wick is properly seated in reducer. Cover with snuffer cap to prime the wick for 20 minutes. Immediately wipe any spills.

3 Remove cap, make sure the ceramic tip is wet with fragrance. Light the ceramic stone and heat for 2-3 minutes. Blow out flame when ceramic is hot. Ceramic will glow orange slightly. NOTE: the flame can go up to 6" high and there can be TEMPORARY black smoke from residual oil. This is normal.

4 Place the vented cap over the ceramic stone. The fragrance will diffuse through the vented cap without a flame. Do not operate in an extremely cold or drafty environment. Only 20 minutes is needed to fill the room with an amazing aroma!

5 To extinguish the hot stone use the snuffer cap to cut off the oxygen flow.

WICK MAINTENANCE: Your wick will have to be replaced periodically depending on how often you use your lamp and how strong you like your fragrance. It is part of the maintenance and care of your "Sentimental" Keepsake. We recommend that you soak your wick overnight in 91% Isopropyl alcohol at least once a week if using daily. Infrequent use requires less cleaning.
